Contents

Eight sections. Read top to bottom, or jump in — every page is self-contained.

01	Mission	Brand essence, promise, audience, behaviors	p . 04
02	Voice & tone	How Auvion speaks, the italic moment, do / don't	p . 06
03	Color	Bone, emerald, onyx, champagne, chrome — full scales	p . 08
04	Typography	Newsreader display · Geist body · numerals as objects	p . 12
05	Surfaces & light	Glass treatments, shadows, the airy edge	p . 14
06	Spacing & radii	4px base, generous gaps, pill chips, soft cards	p . 16
07	Brand assets	AU monogram, wordmark, iconography, feature icons, the CTA	p . 17
08	Caveats	Substitutions, future work, what's not here	p . 20

SECTION · 01

Your clinic, *in every patient's pocket.*

Auvion is an AI-powered retention and revenue platform for med spas. We don't compete with booking software — we sit on top of it as the patient-facing brand layer.

Mission & promise

From an 8-hour-a-day clinic to a 24/7 revenue engine.

MISSION

To help med spas turn one-time clients into loyal, high-value members through intelligent financing, rewards, memberships, and personalized AI engagement.

VISION

A world where every aesthetic clinic operates like a luxury brand — with a direct, intelligent, always-on relationship with the people who trust them with their skin.

CATEGORY WE OWN

Branded Patient Loyalty Apps for Aesthetic Clinics. Not booking software. Not CRM. Not a loyalty plugin. The patient-facing brand layer.

THE PROMISE

Auvion turns a med spa from an 8-hour-a-day clinic into a *24/7 revenue engine* by putting the clinic in the patient's pocket.

Brand behaviors

The five-by-five that holds the line.

AUVION ALWAYS

Treats clinic owners like founders, not customers.

Designs as if the patient is comparing it to Apple — not to a booking app.

Leads with revenue numbers in every conversation.

Talks like a peer, not a platform.

AUVION NEVER

Uses stock medical imagery.

Sends generic email blasts under the clinic's name.

Talks down to clinic owners.

Competes on price.

MISSION RESTATED

We exist to make every aesthetic clinic feel — and operate — like a luxury brand. Because the clinics that win the next decade won't be the ones with the most ads. *They'll be the ones their patients carry in their pocket.*

SECTION · 02

Short sentences. *Confident.*

Numbers over adjectives. Outcomes over features. Auvion speaks to clinic owners like a peer who's just run the math.

Voice & tone

A blend of The Magician (transformation, intelligence) and The Ruler (premium, command).

THE ITALIC MOMENT

Built for revenue.
Designed for retention.

Each display headline gets at most one italic clause in Newsreader italic — the editorial flourish. Roman sets the declaration; italic sets the soft turn. Never two italic phrases in a single line. Never italicize body copy.

DO

- "*Your clinic. Your brand. Your app.*"
- "*Built for revenue. Designed for retention.*"
- "*Patients don't forget the clinics they carry in their pocket.*"
- "*Open at 6pm. Selling at midnight.*"

DON'T

- "Boost your med spa today!"
- "Unleash the power of AI for your business!!"
- "Patient management has never been easier."
- "Our team is committed to your wellness journey."

CASING

Sentence case in product UI and prose. UPPERCASE

EMOJI

Effectively never. The single glyph allowed is ★ for Atelier-

PERSON

Speak to the user in second person. Speak about members

TRACKED 0.16em for eyebrows.

tier mentions, always

in numbers. Never use "we"

Title Case is forbidden.

champagne.

without a reason.

SECTION · 03

Bone primary.
Emerald accent.

Warm off-white surfaces, jewel-deep emerald for action, onyx for type. Champagne is reserved metal — premium only.

Bone

The primary surface. Warm, airy, off-white — never pure white.

PRIMARY SURFACE

Bone

#FBF9F5 · #F4F1EC

The default page background. Pages live here. Cards float on top in **--paper** (#FFFFFF) or as frosted bone glass. Add a faint emerald wash top-left and champagne wash bottom-right for the signature airy canvas.

Auvion Emerald

The single lead accent. CTAs, links, brand moments, status. Never two greens in a single composition.

LEAD ACCENT

Emerald

#1F4D3B

Primary on bone. The CTA gradient runs **#2F7559** → **#1F4D3B** → **#0C2A20**. Use 100/50 tints for subtle washes; 300 for type accents and affirmative ticks; 700 for solid surfaces.

The single Auvion CTA · live demo at </preview/components-buttons.html>

Onyx · Champagne · Chrome

Type, premium metal, and the hairline axis.

40	Heading 1	--t-h1
22	Heading 3 · Geist	--t-h3
16	Body — Geist 400, 16px, 1.55 line-height. Used for everything functional.	--t-body
11	EYEBROW LABEL	--t-eyebrow
§04 · TYPE		

Numerals as design objects

Money figures and hero stats render in Newsreader 300, tracked tight, tabular.
They ARE the headline.

Surfaces & light

Bone canvas. Frosted glass on top. The signature glassy edge = soft shadow + 1px white inset highlight.

Elevation

Spacing & radii

4px base. Marketing surfaces are airy — let space do work that decoration can't.

Radii

Cards 16–22. Inputs 10–12. **Every button is a pill** — chips, status badges, toggles too. No square buttons.

Logo

The AU monogram — an A and a U sharing strokes. The single distinguishing detail.

AUVION

Colorways

Onyx · on bone

Bone · on onyx

Champagne · premium

Source · 1254×1254

Use the matching tint for the surface. Never recolor outside the four supplied variants. The wordmark is Newsreader caps, 0.14em tracked.

Iconography & the CTA

Lucide line icons at stroke 1.5. One CTA, deep-emerald gradient, interactive specular.

Lucide · stroke 1.5 · rounded caps · onyx default, emerald for affirmative ticks

HelpLog inBuild my app →

The single Auvion CTA. Gradient runs #2F7559 → #1F4D3B → #0C2A20 with a top gloss and a lighter-emerald specular that tracks the cursor on hover. **Help** and **Log in** are plain grey text — never buttons.

Feature icons

Four bespoke marks for the four pillars of the product. Same grammar as the Lucide line set — stroke 1.5, rounded caps, onyx default, emerald when chipped.

Automated offers

A price tag with a small sparkle — the offer plus the AI that delivered it.

`automated-offers.svg`

Financing

A card with four installment markers — pay-in-4, smaller, frictionless.

`financing.svg`

Memberships

A seal with an inscribed diamond. Predictable monthly revenue, dressed as belonging.

`memberships.svg`

Rewards

A gift box with a bow. The ★ glyph is reserved for Atelier-tier moments only.

`rewards.svg`

Stored as standalone SVGs in `assets/icons/`. Drop them on bone surfaces in onyx, or inside emerald-tinted chips for feature blocks.

Caveats & substitutions

What's a placeholder, what's not yet built, what to swap in production.

FONTS

Newsreader and Geist are Google Fonts substitutions for GT Sectra / Tiempos Headline and Söhne / Neue Haas Grotesk. Drop licensed .woff2 files into a fonts/ folder and update the `@import` at the top of `colors_and_type.css`.

LOGO FORMAT

The AU monogram is currently raster (1254×1254 PNG, four colorways). For 16–32px UI usage, a vector SVG version would be ideal.

ICONOGRAPHY

Lucide stands in for any future bespoke Auvion icon set. Swap when one exists.

SCOPE

This foundation covers outward-facing surfaces — marketing site, explainer film, decks, ads, one-pagers, email. The patient app and operator dashboard are separate products with their own design.

Your clinic, *in every patient's pocket.*
